

15 November 1971

MEMORANDUM FOR: Mr. Angus Thurmer
Assistant to the Director

SUBJECT : Mr. Vogel's Request

STAT

1. [] asked me to take a look at the attached 1 November letter from Mr. H. Vogel, Jr. The census and census-related data he asks about is available, to some degree, but the material in question is largely based on the output of the Hamlet Evaluation System. We have the material, but for form's sake I believe it would be better if he got it from either State or Defense, preferably State. I would suggest, therefore, that he be referred to the State Department or that you refer his letter to State's Vietnam Working Group for reply.

2. The University of Kansas as an institution has received a copy of the Indochina Atlas Mr. Vogel mentions. I would suggest he be told this and that he be steered to the Kansas University library. There is no objection in principle to sending him a copy, but I am afraid that if we start answering individual requests of this nature we will receive an unending stream of them.

George A. Carver, Jr.
Special Assistant for Vietnamese Affairs
